

## FENCE'S COVER

### RUBBER DROP CLOTH FOR BARRIERS

Protective coating made of ultra-resistant rubber for securing barn fences. Your horses will no longer pass a plumb between the tubes. Ultra light so as not to force on the hinges.

Textile insert

#### COMPOSITION

Natural rubber reinforced with a textile insertion for more tear resistance.

Thickness: 3 mm or 6 mm.  
Light and robust.

#### INSTALLATION

On wooden fences:  
The rubber sheet is screwed directly onto the fence with stainless steel screws and washers.

On metal fences:  
The rubber sheet is fixed using zip ties.

#### CLEANING

Fence protections can be cleaned with a water jet or a high-pressure cleaner.

Reference	Width	Length	Thickness	Weight
IDS Sheet	1,40 m / 1,60 m	Custom made	3 mm	4 kg/m <sup>2</sup>
CCO2FL6IT	1,50m / 2,00 m	Custom made	6 mm	8,8 kg/m <sup>2</sup>
