

IDS SAND

RUBBER MAT FOR SAND BEDDING FREESTALL

COMFORT

Maintains an even layer of sand.
Prevents cows from digging pits in the sand.

SECURITY

The straw top layer, prevents injuries and facilitates cow sleep.

HYGIENE

The sand is a chemically inert material, it's soft and dry and it can't be altered.

RELIABILITY

Reduced maintenance costs, working time and sand consumption.

Screw the mat in the bottom of the freestall pit, then cover with sand. Use straw to create a thick layer on top.
